

BANCTEC PARTNERS WITH BIRIKIM AUTOMATION SYSTEMS TO DELIVER DOCUMENT SOLUTIONS IN TURKEY

LONDON March 12, 2010 – BancTec, Inc., a global provider of advanced, high-volume, document and payment processing solutions and services, has signed a distribution agreement with Birikim Automation Systems (Birikim Otomasyon Sistemleri), a leading vendor of document-based solutions based in Turkey. The agreement covers the distribution in Turkey of BancTec’s highly acclaimed IntelliScan® and E-Series high-speed document scanning and sorting transports, as well as the eFIRST family of software products.

“Birikim is an important IT provider in Turkey, a market that is experiencing solid growth in many sectors,” said Darren Riley, sales manager, EMEA Emerging Markets, BancTec. “Birikim’s extensive market presence, combined with our industry-leading solutions, will form a strong partnership to address a growing demand for document management solutions in Turkey. We look forward to developing many innovative solutions with Birikim in the future.”

“Birikim Automation Systems is a leading IT company in Turkey, with a particular focus on document-based solutions, including document management outsourcing,” said Erdal Akgül, general manager for Birikim. “By partnering with BancTec, we will be able to provide enterprise-class solutions to the Turkish market, especially in finance, telecom and government. We also envision opportunities where we can partner with BancTec to provide business process outsourcing (BPO) services for our clients.”

Turkey has a dynamic economy with modern industry and commerce, as well as traditional agriculture. The private sector has grown in some recent years, yet there is still a strong state presence in basic industry, banking, transport and communications. Real GDP growth has exceeded 6% in many years, though global economic conditions caused growth to slow to 0.9% in 2008 and to contract by 6.0% in 2009. Further economic and judicial reforms and prospective EU membership are expected to boost foreign direct investment in coming years (Source: CIA World Factbook).

About Birikim Automation Systems

Birikim Automation Systems is a leading information technology (IT) company in Turkey that specializes in document-based solutions. Birikim develops its own document management (InfoStore), form processing (InfoForm, InfoClass) and other kinds of software, and has an increasing market share in document management outsourcing. Furthermore, Birikim is distributor of Panasonic document scanners, as well as serving in the market with FaxBack fax server and ADA Systems document management products and solutions.
