## **GLENBEIGH RECORDS MANAGEMENT BECOMES THE FIRST TO EXTEND SCANNING CAPABILITIES WITH THE BANCTEC INTELLISCAN XDS**

London, UK (October 10, 2007) – BancTec, a global provider of advanced products and services to the document and payment processing markets, today announced that Glenbeigh Records Management of Dublin, Ireland, has become the first organization within the UK and Ireland to implement the new IntelliScan XDS (eXtreme Document Scanner) the most advanced high-speed, multi-application document scanning solution on the market. Glenbeigh Records Management is a document storage and records management services provider with a secure off-site scanning and archive facility in Dublin.

“Our production scanning requirements are expanding rapidly so we needed a way to quickly meet these demands,” said Declan Brady, Managing Director at Glenbeigh. “We selected the IntelliScan XDS system for its incredibly fast scanning speeds. It also has the most reliable document handling we have seen from a mixed document scanner.”

The IntelliScan XDS is a multi-application, high-speed, mixed document scanner that offers color, bi-tonal and grayscale image-capturing capabilities up to 600 dpi optical resolution with scanning speeds of up to 550 pages per minute. BancTec will officially launch the IntelliScan XDS in the UK at the Documentation Show taking place at Olympia, London on 16<sup>th</sup>-18<sup>th</sup> October, 2007.

Brady commented, “By adding the IntelliScan XDS to our operations we now have the most advanced off-site scanning facility in the industry. It has allowed us to become more flexible in meeting our client’s processing requirements as well as increase our operational performance. This means we can take on bigger scanning projects whilst offering our customers improved service levels and completion times.”

The IntelliScan XDS provides a completely open paper track to reduce document jams and significantly improve recovery times when a jam does occur. It incorporates easy-to-learn controls and video-based assistance which allows job set-up and training to be quick and simple. These capabilities have allowed Glenbeigh Records Management to spend more time working on quality improvement and customer service activities rather than document preparation and scanning tasks. In addition, BancTec’s local presence and support infrastructure provides Glenbeigh Records Management with immediate response times to support enquiries.

“We are pleased that Glenbeigh Records Management has recognized that the IntelliScan XDS outperforms the competition by redefining enterprise-class scanning performance,” said Mike Peplow, Senior Vice President and President EMEA for BancTec. “With its unique capabilities and configurable options, IntelliScan XDS provides enhanced productivity and delivers an exceptional return on investment.”

### **About Glenbeigh Records Management**

Glenbeigh Records Management (GRM) was established especially to provide secure storage solutions to manage and protect the life-cycle of your business-critical assets, giving you the peace of mind that you deserve. Specialising in offsite document storage, scanning and imaging solutions, offsite media storage, vault storage, document destruction, and consultancy, GRM are the perfect choice for all your document management needs.

GRM was founded in 2003 and is part of the Glenbeigh Group, which was founded in 1985 by Philip Earle and Frank Doolan. With a turnover in excess of €60 million, and over 150 employees, our clients include numerous Government bodies within the Public Sector, along with large and small organizations from Private Sectors including business and finance; consumer and retail; manufacturing and construction; energy and transport; and telecommunications and computing.

Service Quality is an ethos that runs through each Company within the Glenbeigh Group, and it has been instilled by the owners from the very beginning. GRM's Customer Service team are available 24/7 and are only a phone call away. You can be assured that all agents are well-versed in our strict procedures and protocols, and that they are trained to the highest level in order to efficiently respond to your queries.

We pride ourselves on our flexibility in offering customized solutions, along with a commitment to constantly improve our performance. Our highly secure, state-of-the-art facility situated in the heart of the Glenbeigh Campus, combined with our committed customer service team, ensures that our thousands of satisfied clients can gain access to their critical data as and when they need it. We know your business depends on it. Contact us on Freephone 1800 946 398 or +353 1 822 7161. Alternatively, visit our website: [www.grm.ie](http://www.grm.ie)
